CGLO/EPLO report to FEMA JFO, Austin, TX

16SEP2017

OVERVIEW/FUTRUE OPS:

- 1) The (ESF-10) Unified Command (UC) is supported by three operational branches: Alpha Branch in Corpus Christi, Bravo Branch in Houston and Charlie Branch in Port Arthur.
- 2) Continuing Hazard Assessment (HA) response and removal of orphan containers and vessels; observing Responsible Parties (RPs) & vessel owners working with their insurance companies to remove their vessels, pollution related concerns and hazards to navigation.
- 3) Rapid Needs Assessment (RNA) continues in Alpha, Bravo & Charlie Branches.
- 4) **ALL TARGETS:** As of 15SEP17, Rapid Needs Assessment (RNA) teams have identified 1485 targets; 957 have been closed. (This includes Oil, Hazmat, Orphan Containers and Unknown targets.)
- 5) **TOTAL VESSELS:** As of 15SEP17 (281 open & 326 closed) = 607 targets have been identified as vessels (commercial and recreational).
- 6) 15 Staging areas (04-Alpha, 08-Bravo, & 03-Charlie) have been identified for vessel removal (post pollution mitigation; transfer point from USCG to TGLO). Vessel removal operations will begin as soon as the staging areas are secured. Currently TGLO is still vetting out the logistics and legalities of the identified staging areas. Once TGLO completes the vetting process, vessel removal will begin. Closed vessels numbers are decreasing due to vessel owners responding to their property.
- 7) Current USCG personnel assigned as of 14SEP17: Total=112-assigned. Current on duty= ICP=17, Alpha Branch=25, Bravo Branch=48, Charlie Branch=20, JFO/SEOC 2 (EPLOs)

Regards,
